Strong Dual Cure Composite

InjectafilTM **DC**

DUAL-CURE INJECTABLE COMPOSITE

Just Fill It.

Speed, Versatility and Exceptional Performance....All in One.

InjectafilTM is a dual cure composite with handling characteristics that make it ideal for Class I, II, III, IV and V restorations. InjectafilTM provides the ability to bulk fill all classes of restorations without worrying about shrinkage or voids. With a high level of wear resistance and color stability, InjectafilTM is the only filling material you need to ensure exceptional long term success.

- Save time...completely fill your restoration with ONE layer and ONE material
- Easily polished, highly wear resistant, and stain resistant
- Color stable
- Void-free restorations
- Shrinkage-stress free
