

The Complete Core Build Up / Luting Cement

The only material to offer a complete core build up material and superior luting cement in the same package.

Apex has combined your core build up material and luting cement into one convenient, easy to use product while improving the individual performance of both materials. Remaining true to our goal of delivering the right products at the right time, Apex is proud to offer this truly unique combination of ease of use and superior performance.

- Easy to place
- Incredibly easy to clean-up
- Bonds to tooth structure
- Easily contoured and prepared immediately
- High in strength and modulus
- Cutting resistance similar to tooth structure (carves like dentin)
- Tooth shade under ceramic crowns and veneers
- Compatible with bonding systems
- Fluoride releasing
- Extremely radiopaque
