Electrical equipment should be protected to the appropriate standard. Use only explosion-proof equipment. Personal protective equipment Respiratory protection : In case of insufficient ventilation wear suitable respiratory equipment. Recommended Filter type: AX-P2 : Nitrile rubber Hand protection Neoprene gloves butyl-rubber Protective gloves complying with EN 374. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Eye protection : Eye protection (EN 166) Tightly fitting safety goggles : Chemical resistant protective clothing according to DIN EN Skin and body protection 13034 (Type 6) Hygiene measures : Take off contaminated clothing and shoes immediately. Keep away from food, drink and animal feedingstuffs. Wash hands before breaks and immediately after handling the product. Avoid contact with skin and eyes. Do not breathe vapour. Do not breathe spray. **Environmental exposure controls** General advice : Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration. 7/13
